

Warm Felicitations to Professor Dr. Tian Weizhi

Ph. D supervisor with China Institute of Atomic Energy (CIAE), on his life time achievements in the field of Radioanalytical and Nuclear Chemistry. Prof. Tian graduated from Nankai University in 1963, majoring in Radiochemistry. He has been a Member of International Committee of Nuclear Analytical Methods in the Life Sciences (NAMLS) since 1998 till date. He was General Chairman of International Conference NAMLS-VI, October 26-30, 1998, Beijing, China. He has also been a Member of National Committee of Certification of Reference Materials since 1994 till date. He remained Chinese National Coordinator for IAEA/RCA Project "Nuclear Analytical Techniques" (1993-2002). He held a prestigious position of Director of Nuclear Analytical Laboratory, CIAE (1996-1999). He undertook various IAEA expert missions to PINSTECH (Pakistan), OAEP (Thailand), NTRC (Indonesia), NRI (Vietnam) and MINT (Malaysia), on topics of the techniques and QA/QC in nuclear analytical chemistry. He is a member of the International Advisory Committee of this journal. We wish him more success in the future. He has very kindly contributed an invited paper in the current issue of The Nucleus.
